To smoke or not to smoke?
Is now a question, that's no joke.
Am I to throw away my weed,
Which was a courtesy indeed?
Or is it proper etiquette
To offer her a cigarette?

A Rare and Inspiring Spectacle—
"The Heavens Declare the Glory
of God and the Firmament
Showeth His Handiwork."

Last night, during the eleventh hour, the sky above Maysville presented a spectacle that was most inspiring and beautiful to behold. There was an atmospheric phenomena that was witnessed and commented upon by those who were fortunate enough to see it. After 10 o'clock, the moon, at greatest northern declination, and now nearly full, shown in soft mellow light near the zenith; a clear-cut circle, elliptical in shape, surrounded the "Queen of Night," presenting every color of the sun-kissed rainbow, while a broad, straight bar of blue-black cloud stretched diagonally across the sky, from southwest to northeast, slowly passed broadside across the circle from zenith to horizon side. A beautiful feathery formation of clouds radiating from a center in the southwestern sky, in widening vanes of blue and white, displayed a mammoth heavenly fan akin to the Aurora Borealis. Just past the meridian, old Saturn, the next largest world in our solar system, with his eight moons, and magnificent rings now on dress parade, was an object beautiful to behold. That first magnitude star, Sirius, in canis major, and the brightest star in all the universe blazed forth in the southern sky. The splendid constellation Orion, the most beautiful and conspicuous in all the heavens, presented his diamond belt and great nebulae, guarded on either side by the giants, red Regel and yellow Betelgeuse. The Pleiades and Hyades, and tremendous Aldebaran (the bull's-eye of Taurus). Beautiful Capella, still high up in the west, "the heavenly twins," Castor and Pollux, directly overhead; the venerable Regulus, that fiery red jewel in the handle of the scyde, a little further to the east. The incomparable Arcturus ruling in the northeastern section of the firmament, the great Dipper, upside down, in the northern sky, with the permanent pointers, the mariner's guide to Polaris, and the innumerable suns of lesser note studying the heavenly dome, called forth exclamations of wonderment from a stargazer standing transfixed at the sight, and thought of the incomprehensible infinitude of the Divine Architect of the limitless universe.

THOMAS BLANCHARD

Prominent Grocer of the Fifth Ward
Died Sunday Morning After Long
Illness—Mother Living At
89 Years.

Mr. Thomas Blanchard, who was born in this city, April 24, 1854, died Sunday morning at 7 o'clock of a complication of diseases, at his home in East Second street.

He was one of the oldest members of Cigarmakers' Union No. 105 of this city, having been a member for over 34 years, and a charter member of the Amazon Fire Company.

For the last 30 years he has conducted a successful grocery business at Second and Commerce streets, with his brother, Mr. Henry Blanchard.

He is survived by his mother, Mrs. Jane M. Blanchard, 89 years old; two brothers, Charles of Richmond, Cal., and Henry of this city; one sister, Mrs. Mollie Owens of this city.

He was not a member of any denomination, but affiliated with the First Presbyterian church, his family being Presbyterians of the old type.

Funeral Tuesday afternoon at 2 o'clock at his late home, with the services in charge of Rev. John Barbour, pastor of the First Presbyterian church. Burial in the Maysville cemetery. Please omit flowers.

YOU ARE INVITED TO VISIT DIS-
PENSARY TUESDAY.

Most of the people of Maysville and the vicinity appreciate the quiet, consistent work which is being done by Miss Casey and the Mason County Health League. However, they know of it rather indirectly; so, in order to bring them into closer touch with its splendid achievements, the members of the League invite all friends to visit the Dispensary on Court street, Tuesday evening, from 7:30 to 10 o'clock. Plan to be present at some time during these hours for those on the firing line like to know that there is a good strong army behind them.

POLICE COURT.

Judge Whitaker assessed the following fines and costs in Police Court Saturday:

Amanda Dempsey, breach of peace, \$10.50.
Sis Cash, drunk and disorderly, \$10.50.
A. S. Collier, loitering and drunk, \$10.50.
Charles Dickson, loitering and drunk, \$5.50.

The L. & N. wreck train arrived here yesterday and placed back on the track the cars which were derailed Friday.

Several cars on a westbound freight train were derailed near Brothers Saturday and delayed traffic for several hours.

22,209,325 POUNDS

Sold This Season on the Maysville Tobacco Market—All Former
Records Beaten

The Maysville tobacco market sold last week 2,496,300 pounds at an average of \$8.46.

Total sales to date, 22,209,325 pounds at an average of \$8.24 per hundred.

The season's sales will reach nearly 28,000,000 pounds, which will be more than 5,000,000 pounds over the 22,000,000 pounds sold during the season of 1912-13, the high-record year.

The Maysville market continues to demonstrate its great superiority as the leading loose leaf tobacco market of the Ohio valley.

Supervisor Cliff has resigned his position last Friday. His successor has not been appointed by the Maysville Tobacco Association.

STOCK BREEDERS OF FLEMING COUNTY ORGANIZE ASSOCIATION.

Flemingsburg, Ky., February 27.—On Thursday of last week, Prof. W. S. Anderson of the Kentucky Agricultural Experiment Station, made two addresses here at the city hall to a fair-sized audience of stock breeders of the county and with the assistance of Mr. W. H. Clayton, county farm demonstrator, organized the Horse, Jack and Mule Breeders' Association of Fleming county, with Frank Royce president, G. W. Davis, vice president; W. W. Ross, secretary and treasurer.

This association will look to the advancement of the live stock interests, to more advanced methods of breeding, to a more intelligent selection of breeding material, and also to the commercial advantages to be derived from a concerted action and effort, and of a united endeavor on the part of its members to reach a market for the live stock product, for which the county is already famous.

Prof. Anderson spent Friday morning looking at a number of stallions used here for breeding purposes and expressed himself as being highly pleased at finding some such rare specimens as he saw here.

REVENUE ASSIGNMENTS AT MAYSVILLE FOR MARCH.

Poyntz Bros. Company—H. M. Wilson, storekeeper-gauger.

J. H. Rogers Company—David Bierley, storekeeper-gauger.
W. C. Slye is assigned to the George Baker distillery, Frankfort.
M. B. Dodson to the E. H. Taylor, J. & Sons distillery at Frankfort.
F. W. Harting to J. N. Blakemore distillery, Farmdale.

DANCERS DISMISSED FROM THEIR CHURCH.

Princeton, Ky.—Dancing has been a temptation too strong for resistance by some church members of this section whose church forbids its members indulging in the practice. Especially is this said to have been the case with a Baptist church near Scottsburg, this county, whose officers and members have enforced the rule against dancing, and as a result some of its members have been dismissed from membership.

GIRL, 18, LEAVES SCHOOL AT MIDNIGHT TO MARRY.

Morgantown, Ky., February 27.—Miss Rachel Baynes, daughter of H. M. Baynes, of Dunbar neighborhood, left school here last midnight to be married. Miss Baynes was attending school at this place, and her father intended her to teach school this fall. Both the young man and young lady were 18 years of age. It is supposed they went to Tennessee.

ANOTHER BIG DIVORCE CASE AT PARIS.

Paris, Ky., February 27.—Mrs. Mary Stoner Clay today filed suit in the Bourbon Circuit Court against her husband, Hon. Sidney G. Clay, asking for an absolute divorce and for the custody of their children.

CAN NOT INCREASE FREIGHT RATES NOW.

Washington, February 27.—The Interstate Commerce Commission today suspended until June 29 proposed increases in rates by central and western railroads.

Lieut. Samuel Peacock of the coast guardship Miami, sent in his resignation to Washington rather than be vaccinated against smallpox.

MARRIAGES

Glenn-Logan.
Married, at the residence of Dr. Edwin Matthews, Saturday afternoon, February 27, at 3:30 p. m., John M. Glenn of Muse's Mills, Fleming county, to Miss Lucinda Logan of Cincinnati, O., the Rev. A. F. Stahl officiating.

Osborne-Tabb.
James C. Osborne and Anna F. Tabb, both of Dover, were granted a marriage license here Saturday and will be married at the home of the bride in Dover, Wednesday, by Rev. Nichols.

Hutton-Planck.
James F. Hutton, aged 35, and Audra Planck, aged 20, both of Flemingsburg, were married by Rev. W. B. Campbell Saturday afternoon.

On Saturday afternoon the parlors of Whitehall Hotel were filled with a bevy of lovely young girls, the occasion being a Five Hundred party, given by Mrs. C. M. Jones in honor of Miss Pat Jones of High Point, N. C., who is the house guest of Mrs. Fred Jones in East Second street.

A beautiful color scheme of red was carried out in the decorations, the salad

and ice courses, and in the costume of the honoree. Three corsage bouquets of sweet peas were presented by the hostess. One to Miss Thelma Kirk for highest score, to Miss Elizabeth Luttrell for second highest, and one to the honor guest.

About a score of Maysville's charming "younger set" were in attendance.

Maysville's social and religious circles are to lose a favorite in Mrs. E. L. White, who is to reside in Cincinnati in the near future.

D. HECHINGER & CO. Maysville's Biggest and Best Clothing and Shoe Store

"I'd Like to Look Like That Man."

How often you have admired some other man's clothes and wished you could appear as well dressed as he. The secret underlying his well-groomed appearance probably is that he's wearing "Hechinger Clothes."

He selected them in our store and satisfied himself of their "becomingness" before wearing them on the street. You have the same opportunity as he. Let us show you.

Our stock of Raincoats is at its best. Prices \$5 to \$25. Many of these can be worn as a Spring or Fall Overcoat.

DUST A CAUSE OF MUNICIPAL DISEASES.

Irritating, infecting dust, contaminating the city atmosphere is the most prominent factor in the production of city diseases. This dust menace and nuisance is preventable, not only in the streets, but likewise in our living and working places, in houses, cars, stores, factories, shops, offices, stations theaters and churches. At present there is a vicious circle. Street dust is blown, swept and tracked into habitations, to be swept back into the streets again. Much house-dust pollution would be avoided if the original street-dust were removed or allayed.

This was recognized by Benjamin Franklin, whose many talents and rare common sense are as well known as his courageous patriotism and eminent public service. The dust evil was a seriously annoying problem to him as a citizen if not as a sanitarian; to him dust was at least noisome of offensive if not infective. Letters were sent to the mayors of Baltimore, Buffalo, Birmingham (England), Berlin (Germany), Budapest (Hungary), Cleveland, Denver, Detroit, Dublin (Ireland), Leipzig (Germany), London (England), Minneapolis, New Orleans, New York, Paris (France), St. Louis, Stuttgart (Germany), Toronto (Canada), Vienna (Austria), and Washington, D. C. A summary of the replies shows:

1. In a majority of the cities where results were satisfactory, the principal cleaning was done at night, or completed before 6 o'clock in the morning.
2. Thorough sprinkling preceded sweeping. Sprinkling was also done two to four times daily in dry (non-freezing) weather to lay prevalent dust.
3. Flushing wagons or flushing from curb to curb with hose is the method used in preference, to sprinkling and machine sweeping in the best cleaned cities.

4. Hand sweeping by blockmen in daytime is always preceded by wetting with a hand sprinkler.
5. Piles of dirt are immediately removed while wet or damp in covered wagons.
6. Last, but by no means least, is the dustless operation of dust and dirt removal by automobile vacuum street-cleaners, on the principal of vacuum house cleaning which is now rapidly taking the place of the old dirty, dust-raising broom and feather-duster. In one hour as much surface can be actually cleaned as was imperfectly gone over with dusty accompaniments by horse-drawn sweepers in six hours.

That most of the communicable diseases of the throat and lungs are produced and transmitted by dust is doubtless true. In a recent number of the Journal of the American Medical Association, Dr. H. S. Anders of Philadelphia, discusses this problem at length and relates the efforts made in Philadelphia to suppress this evil.

SIGNIFICANT.

At the risk of giving a free ad we will observe that there is something singularly appropriate in the fact that Secretary Bryan's new volume of lectures is published at 30 cents.—Boston Transcript.

WORDS OF WISDOM FALL FROM LIPS OF EDUCATORS.

We have made practically little advance in the vocational training of women.—Miss Edith Campbell of Cincinnati.

Parents are so busy amassing wealth and social connections that their children are neglected until conscience drives them into temporary indulgence.—William P. Evans of Jefferson City, Mo.

A nation wide system of industrial education is necessary to economic prosperity and supremacy of the country.—C. A. Prosser of New York.

The American high school is in the educational limelight now and will be until its great pressing problems are solved.—Charles Hughes Johnston of Chicago.

The Teachers' Agency endeavors to fit teachers to places, not places to teachers.—Alvin F. Pease of Boston.

School officers have difficulty in developing professional standards because Boards of Education do not understand the importance of properly trained teachers.—Charles H. Judd of Chicago.

In agriculture we are worse off relatively than we were 40 years ago. The need for vocational education is a national one, involving, as it does, our success, both in our relations to foreign countries in trade and commerce and to our social and economic problems at home.—John Lapp of Indianapolis.

HE'S NOT THE WHOLE SHOW.

"There will be no intervention in Mexico while I am Secretary of State," says Colonel Bryan.

But, Colonel, intervention is an act of war and not even the President can declare war.—Ripley Bee.

Some Cook, Some Dish.

Husband—What a peculiar dish!
Wife—I did the cooking myself, and in turning the leaves of the cook book I turned two at a time, and I cooked the herring in apple jelly, but you don't mind, do you?

"No, I won't" was the reply. "I've got the meat."

STRAIGHTFORWARD TESTIMONY

Many Maysville Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments—are endorsed by over 30,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.

Henry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equalled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Gallenstein had—the remedy backed by home testimony. 50c all stores. FROM A YOUNG GIRL'S DIARY.

"I don't like—I'm in love. He is a real man, tall, handsome, with the most beautiful gray eyes. I shall love him forever.

July 1, 1913—At last I have met my ideal man. He has blue eyes, is of medium height, but has a very commanding appearance. I know this love is the real thing and I shall never get over it. I found that my gray-eyed gink runs a shoe store. How horribly unromantic!

January 1, 1914—Rather short—in fact, just about my own height, the best height of all—my brown-eyed hero has come into my life at last. In my dreams I have seen this ideal man of mine and now he is finally here. How happy I am in this final, true, life-lasting love of mine. When I think that I once thought I was in love with the blue-eyed blondie, it makes me shiver; especially when I remember that he was already married.

January 1, 1915—Black-eyed hero, ideal, dreams, etc. How strangely familiar this all seems!

UNPREZIED FINANCE.

Among the unfrenzied financiers of the wild and woolly west, E. R. Dewitt of Snowflake, Ariz., will rank as A1, copper-bottomed and copper fastened. He has a contract with the Postoffice Department for carrying parcel post matter from Holbrook to Snowflake, 30 miles, at \$1.60 per 100 pounds. The postage on parcels is \$1.80 per 100 pounds.

Mr. Dewitt needed a lot of rolled barley. He bought five tons of the Mesa Milling Company, and shipped it to Snowflake in 200 sacks of 50 pounds each, says the Los Angeles Times. For railroad transportation of this barley from Mesa to Snowflake, 30 miles, he paid the United States government \$108, and the United States government paid him for carrying it the 30 miles \$160. He received \$52 more than he paid for transportation. He got his 200 sacks of rolled barley carried for nothing and obtained \$52 besides.—Exchange.

A DISGRACEFUL ORGY.

They call it a "temperance banquet"—but who was deceived? Just because only "soft drinks" were supposed to be served they had the assurance to designate it thus! Cravens!

What did they know about machinery? The onions were pickled. The potatoes were stewed to the eyes. The coffee was in its cups. The candles were all lit up. The mince pie was groggy. Each bread plate had a bun on. Every steel knife had an edge. The cracked tumbler had had one drop too much before it was brought in. The saltcellars were full. The blooms with which the table was decorated had been out all night. Even the ice water was drunk before the evening was over. And the vinegar—oh, mother! In fact, all the food and drink was on the downward road.—Judge.

PRESCRIPTION FOR "MERRY WIDOW" WALTZ.

"The Merry Widow," the waltz which has cast a spell over the civilized world, has recently been described as follows: "For the 'Merry Widow' waltz, take to your arms a girl of 19 or maybe 19½ and about the same around the waist, close your mind to every thought but the gleam in her eyes, languorously abandon yourself to the glide that makes the brain dreamy, soften the heart strings until the odor of an arbor steals in with the passion of the lyre and the whole world is aglow with the blue of the sea, and on through the dance, but never give way to the soulful confession, 'I love you,' and that is the 'Merry Widow' waltz."

TWELVE THINGS TO REMEMBER.

The value of time.
The success of perseverance.
The pleasure of working.
The dignity of simplicity.
The worth of character.
The power of kindness.
The influence of example.
The obligation of duty.
The wisdom of economy.
The virtue of patience.
The improvement of talent.
The joy of originating.

HOW TO KEEP CALVES FROM HAVING HORNS.

The time to operate is when the calf is young, and the thing to use is caustic. Moisten the end of the caustic and rub it on the "button" which has the intention of becoming a horn. Clip off the hair first. Care should be taken not to put on so much of the caustic as to cause it to flow off the button upon the skin. If used properly—and the operation requires no great skill—no horn will develop.

ARE YOU RESPONSIBLE FOR YOUR DOG?

A dog is property in Nebraska, and his owner is personally responsible for any damage he may do. In Nebraska a dog which runs out upon the road may be shot by people annoyed by his barking. The useful, well-behaved dog will not be affected by such laws, and wise dog owners will agitate for such laws.—Farm and Fireside.

MYSTERY, THE ESSENTIAL.

The entire superstructure of fraud in medicine has for its foundations secrecy and mystery. Take away these elements, and that gigantic monument to human credulity—the "patent medicine" business—crumbles. Hence the frantic efforts of those who have built fortunes through the exploitation of nostrums in opposing every movement that would permit the public to know the drugs it is taking in "patent medicines." A forgotten chapter in quackery is related by the Journal of the American Medical Association. About 150 years ago Mrs. Stephens in England claimed to have discovered a cure for "gravel and stone in the bladder and kidneys." So skillfully did she call her wares that she deluded ignorant and educated alike into a belief in her discovery. Dr. David Hartley, physician and philosopher, collected and published reports of 150 cases—his own among them—showing the value of Mrs. Stephens' "cure." Convinced that Mrs. Stephens had discovered a boon to suffering humanity, many urged her to make public the secret of her formula. Quack-like she refused, but—also quack-like—she offered to give up the formula for 5,000 pounds (\$25,000). Attempts were made to raise this amount by public subscription, but without success. In spite of the fact that many contributed to this fund, only about 1,500 pounds was raised. Parliament was then petitioned to make a grant, which, in due time, it did. Mrs. Stephens got her 5,000 pounds and the public got her "formula." The latter was published in the London Gazette. The "cure" consisted of egg shells, snails (shells and all), hips and haws, ash-keys, swine cress and various other vegetables all burned to a cinder and the ash mixed with camomile flowers and fennel and other vegetables. But alas! Now that the public knew what was in Mrs. Stephens' nostrum, it would have none of it. The cure fell into disrepute, and finally went the way of all such frauds, into oblivion. Dr. Hartley died of the disease of which he believed Mrs. Stephens had cured him.

WHY COUNTRY NEWSPAPERS ARE SO INTERESTING.

In the March American Magazine David Grayson, writing his story entitled "Hempfield," presents a character who comments as follows on the work of a country newspaper editor:

"My father always used to say that the little things of life are really the big things. I didn't use to think so; it used to hurt me to see him waste his life writing items about the visits of the Backuses—you know what visitors the Backuses are—and the big squashes raised by Jim Palmer, and the meetings of the Masons and the Odd Fellows; but I believe he was successful with 'The Star' because he packed it full of just such little personal news."

"We are more interested in people we know, than in people we don't know. We can't escape our own neighborhoods—and most of us don't want to."

IMPORTANCE OF PREMIUM IDEA—VALUED AT \$125,000,000 ANNUALLY.

Figures showing the premium idea's hold on the buying public were quoted at a convention of the National Premium Advertising Association, Inc., at New York recently. About 300 delegates were present.

"Goods worth \$125,000,000 are used annually for premium purposes," said Sidney A. Kirkman, president of the association, "in promoting the sale of \$3,500,000,000 worth, and the total annual sales of houses using premiums is over \$5,000,000,000. Five million American homes get premiums annually, and one of every three general retail stores give them. Over 2,500 firms, employing 25,000 workmen, make goods used as premiums."

"I AM A DEMOCRAT"

Declares Mrs. Charles T. Lytle, and She Is Appointed Postmaster At Augusta.

Washington, February 27.—The Senate this afternoon, on motion of Senator James, confirmed the appointment of Mrs. Virgie Lytle as postmaster of Augusta, Ky.

This action was taken while rival camps of Kentuckians were in Washington, one urging and the other opposing her confirmation. C. T. Lytle, her husband, a well known traveling man, and J. B. Hiles, arrived here to ask that she be confirmed. The opposition was led by J. E. Thompson, who came to make the charge that Mrs. Lytle is not a Democrat and had publicly said that she is a Republican.

Senator James, however, was put in possession of an affidavit made by the woman herself in which she declared herself to be a Democrat. The appointment was made on recommendation of Representative W. J. Fields.

HOW THE UNITED STATES ROSE FROM THE OCEAN.

An interesting exhibit which will be shown by the United States Geological Survey at the Panama-Pacific Exposition, in San Francisco, will be the illustration of the development of the surface features of the United States and adjoining lands—the gradual rise of the continent from the primal ocean and the accompanying developments of life—a pictorial story of progress from the early fish and the huge half-reptile creatures known as saurians to the higher mammals such as the great saber tooth tiger and the giant hyena.

More than 2,000 miles of line and 11,000 miles of wires and cables and 183 telephone exchanges were established in India last year.

LATEST WAR BULLETINS

Turkey.
The British admiralty announces that during the bombardment of the Dardanelles fortifications the battleship Agamemnon was struck by a shell and that three men had been killed. After having completed the destruction of the outer forts the allied fleet, said to be the greatest ever in action, is now attacking the inner forts. It is supposed that the fleet has orders to go on to Constantinople. Mine sweepers are clearing the way through the narrowest part of the straits, leading to the all-important forts at Kilid Bahr and Chanak. It is reported that the residents of the islands in the sea of Marmora have been ordered to evacuate their homes, and that an imperial train is waiting to take the Sultan to Asia Minor. Wheat has dropped two shillings in Liverpool.

England.
Great Britain and her allies have advised neutral countries that they hold themselves at liberty to stop all shipping to and from Germany and the countries of her allies. Public announcement will be made of this action tomorrow or during the week. The declaration is not a reply to the American note. Washington has heard nothing from Berlin or London concerning the joint note concerning shipments to Germany and a cessation of submarine warfare.

France.
The American steamer Dacia has been captured by a French cruiser in the English channel and taken to Brest. The Dacia was bound from Galveston to Bremen with a cargo of cotton.

Russia.
Russian successes are reported in North Poland and East Galicia, which, with the action in the Dardanelles and the decision of the allies to stop all shipping to and from Germany, is regarded as a new phase of the war which is being entered upon.

Germany.
The Federal Council at Berlin adopted the preliminary budget estimates, including \$2,510,500,000 for carrying on the war. No provision is made for redemption of war loans.

German Newspapers Suspend Publication.
Amsterdam, Holland.—Figures compiled by the postal authorities show that since the beginning of the war 864 German newspapers have suspended publication.

French Prisoner a Prisoner.
Amsterdam.—Georges Carpentier, the French pugilist, has been wounded and taken prisoner by the Germans, according to a Berlin dispatch.

Nothing Doing.
Rumors that a \$50,000,000 loan had been raised privately in New York for Germany met with prominent denials. It was said by German banking interests that no such loan had been negotiated.

RIPLEY THIRTY YEARS AGO
From the Ripley Bee.
(February 18, 1885.)

Judge Tyler is now on his second term as Probate Judge, having taken the oath of office Monday of last week. The Dover Dramatic Club rendered the play, "Lady of Lyons," at the City Hall, Friday evening, to a full house, equal to old professionals.

Horace Reed was buried at Maplewood cemetery Monday. The members of the G. A. R. Post of this place took charge of the remains and conducted them to the cemetery. He was born in Ripley March 3, 1849.

Henry H. Patterson, mate of the Granite State, was accidentally killed at the wharf at New Albany, Ind., last Sunday night when a 10-ton shaft fell on him and crushed his head. He was born in Ripley, was a son of the late William Patterson and a member of Company H, Twelfth O. V. I., during the war.

Mr. John Crouch has opened a skating rink at Armory hall, this city, and will run Wednesday, Thursday and Friday evenings.

FACTS ABOUT PRESIDENTS.

Only one of our Presidents, Buchanan, was born in Pennsylvania.

Three of our Presidents, Jackson, Polk and Johnson, were born in North Carolina.

Three of our Presidents, Van Buren, Fillmore and Roosevelt, were born in New York.

Two Presidents, Washington and Monroe, were born in the same county, Westmoreland, of Virginia.

Six of our presidents were born in Ohio. They were Grant, Hayes, Garfield, Benjamin Harrison, McKinley and Taft.

Two of our Presidents, John Adams and Thomas Jefferson, both signers of the Declaration of Independence, died on July 4.

John Adams, second President, and his eldest son, John Quincy Adams, sixth President, were both born at Braintree, Mass.

No one of the Presidents of the United States was born west of the Mississippi river, and no President has ever been elected from a state west of the Mississippi.

It was the support of slavery as an institution and the strict enforcement of the fugitive slave act by President Franklin Pierce, born in New Hampshire, that resulted in the formation of the Republican party, which elected Abraham Lincoln, born in Kentucky, on an anti-slavery platform.

Presidents of the United States have been born in but ten of the 48 states of the Union. They are Virginia, eight; Massachusetts, two; New York, three; New Hampshire, one; Pennsylvania, one; Kentucky, one; Ohio, six; Vermont, one; New Jersey, one.—Boone County Recorder.

If all the stars were monster whales. And every cloud a bear; T. R. would grab 'em by their tails And heave 'em through the air. —Springfield Union.

If all the trees were fearsome whangs. And all the rocks were whunks. T. R. would nip them with his fangs And stand them on their conks. —Cincinnati Enquirer.

1,079,395 POUNDS

is some Tobacco. That is the number of pounds that was unloaded and sold at the HOME last week. This is a week's record that has never been exceeded by any loose leaf house in the world, and it shows what "home people" can do.

It is worth a long trip to see the ease and care and satisfaction with which they handled this great quantity of Tobacco. They took good care of every customer and all went home satisfied.

The Home is strictly a home concern. All of its capital stock is owned by residents of Mason, Bracken, Robertson and Lewis counties, Kentucky, and Brown and Adams counties, Ohio. It was erected for, belongs to and is run for the benefit of the Burley Tobacco growers and citizens of this section, and is able to handle and would like to have more business. It can take good care of all that comes. It has handled more business this year than ever before. It is the house that sorts and sells Tobacco well. Its officers and employees do not speculate in Tobacco. They serve alone the sellers.

If you are not a stockholder, they would be pleased to have you take some stock. They want every grower in this section to become a stockholder. Shares are \$10 each. It has never failed to pay a dividend and will pay one this year. Get some of the stock. You could not make a better investment.

WHITHER ARE WE DRIFTING?

Plans for an extra session of the Senate to ratify treaties and confirm nominations immediately after March 5 have been abandoned. The foremost possibility for an extra session, it is stated, will be October 1, two months earlier than the Sixty-fourth Congress ordinarily would assemble. Favorable action was taken by the Senate Interstate Commerce Commission on all the nominations for the Trade Commission except that of George Rublee.
